Art

For the Urban Space

We create decorations for cities, spaces, and events.
Designed to attract visitors, boost businesses, and
transform places into unforgettable destinations.

IMPACT.PLAN
ART PRODUCTIONS

Artisanal Fabrication

Each Impactplan piece is unique, handmade with care to bring joy and color to the world.

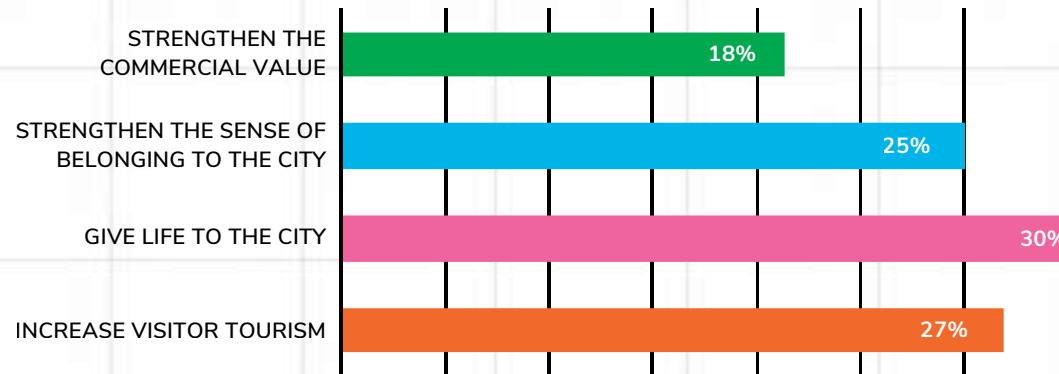

By choosing our products, you are supporting local artisans, promoting the local economy, and valuing a creative process that respects the planet and carries the uniqueness of the human touch: different, special, and made with love.

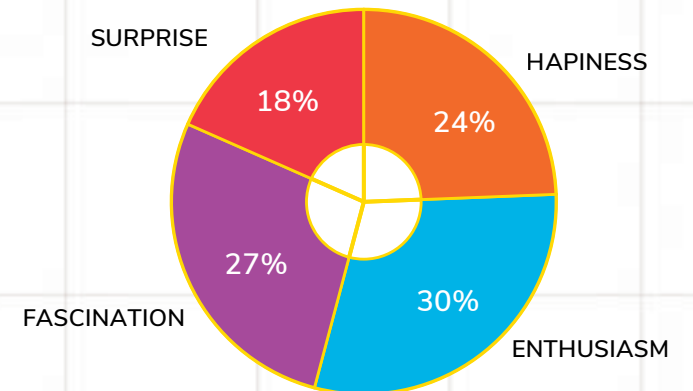

Our mission:

To bring color to the world while delivering a return on investment

IMPACT IN PLACES

IMPACT IN PEOPLE

IMPACT ON SOCIAL MEDIA: "EXPONENTIAL GROWTH"

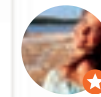

Daniel Bideau

"Full of **colors and smiles**. A breath of fresh air for the city of Périgueux."

Tânia Domingues

"I loved your **installation in Paris!** Simply amazing to see the street in pink."

Rita Fernandes

"Honestly, it was a very hot summer day, but under the umbrellas it felt very cool. Amazing for the colors and the life it brought to the city."

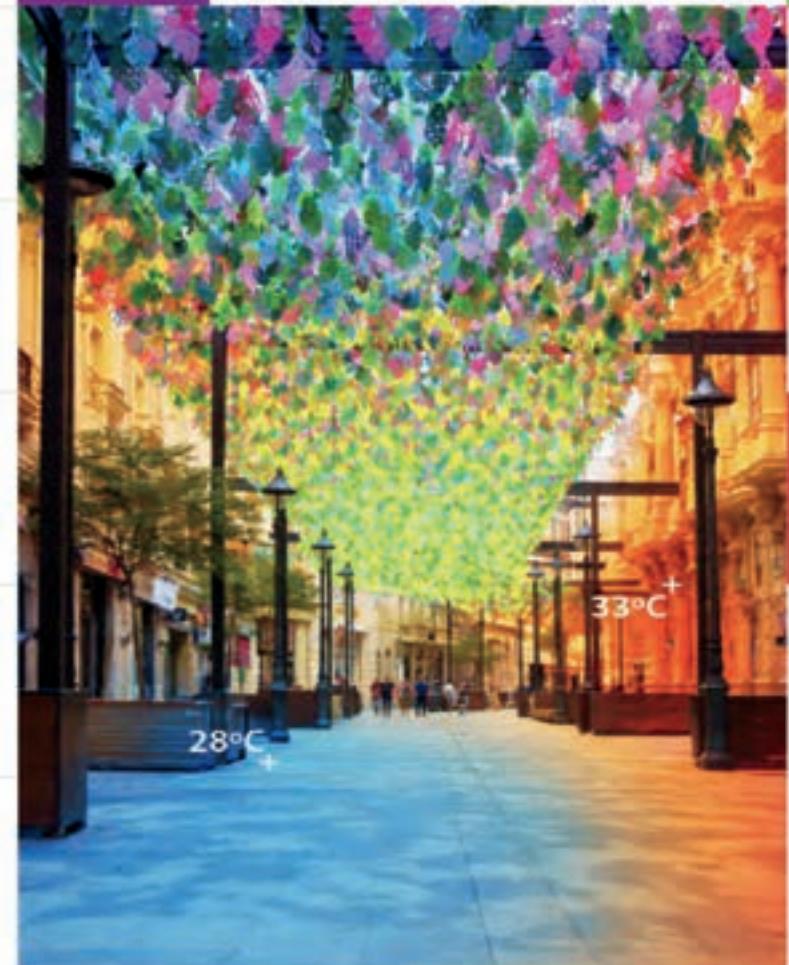

Climate Shelter

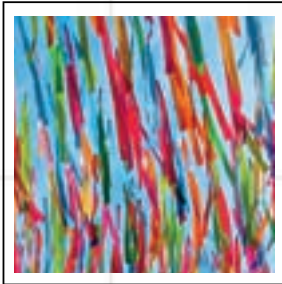

Our decorative canopy installations not only beautify the urban space but also provide an **important climate benefit**. Their design creates large **shaded areas that significantly reduce the temperature beneath the installation, forming a true urban climate refuge** in the middle of the city.

This cooling effect improves the comfort of pedestrians and visitors, transforming the street into a more walkable and pleasant place even on the hottest days.

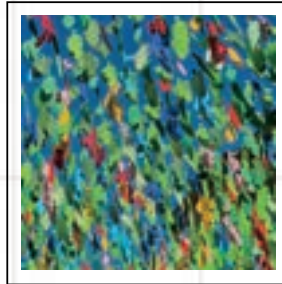

The temperature difference between areas exposed to direct sunlight and the shaded zones is clearly noticeable, **contributing to citizens' well-being and encouraging the active use of public space.**

A large-scale outdoor art installation at night. The scene is dominated by a dense canopy of colorful, illuminated flowers (red, blue, yellow, green) hanging from the ceiling. The flowers are suspended by thin wires, creating a thick, vibrant ceiling. Below the canopy, a crowd of people is gathered on a green-lit ground. In the background, a large, ornate building with classical architectural features is visible, illuminated with warm lights. The overall atmosphere is festive and celebratory.
